

REPAIR & SERVICE

VACUUM PUMPS & FREEZE DRYERS

INCLUDING EDWARDS, LEYBOLD, KNF AND MOST LEADING MANUFACTURERS

MechaTech Systems service and repair vacuum pumps, vacuum systems, freeze dryers, Hyscans and S35 Analysers. We maintain most leading manufacturers equipment including Edwards, Leybold, KNF, etc. **We are Edwards Vacuum Stockists and an authorised service centre for KNF diaphragm pumps.** We also provide gauge calibration traceable to UKAS National Standards.

Our service engineers use **genuine manufacturer's spares**, maintain stock of standard spares for fast turnaround and have a combined experience of over 50 years in the business.

Our existing client base includes universities, government research centres, nuclear power stations, small to medium enterprises and large blue chip manufacturers.

We offer **competitive 'on demand' rates**, or preferential rates with an annual service contract. Service contracts can be tailored to suit your individual needs.

For in-house service, we will **collect and inspect equipment** and then provide a firm quotation for approval before proceeding. Once the service has been completed, we will return your equipment at a pre-arranged time.

Each service includes **a full report** plus 6 months warranty. Subject to stock availability, we can supply vacuum pumps and benchtop freeze dryers for hire in the event of a breakdown. We also offer automation upgrades for existing vacuum systems e.g vacuum coaters, freeze dryers, leak detection systems.

MechaTech Systems are certified to ISO9001:2015 and registered as suppliers on Achilles UVDB database. We receive **excellent feedback**.

Edwards Vacuum stockists and KNF Laboport diaphragm pumps and Welch pumps authorised agents and service centre
